# The Solution: Autonomous AI Sales Agents

We don't just build chatbots. We build **fully autonomous revenue engines**. Our agents act as digital SDRs (Sales Development Representatives) that never sleep, never churn, and constantly improve.

## Core Capabilities

- **Calendar Booking:** Automatically schedules meetings directly into your sales team's calendar.

## Technical Architecture

Our stack is built for enterprise scale and security:

- **LLM Orchestration:** GPT-4o / Claude 3.5 Sonnet for high-reasoning tasks.
- **Vector Database:** RAG (Retrieval-Augmented Generation) for instant access to product knowledge.
- **Voice AI:** Low-latency voice synthesis for human-like phone conversations.
- **Integration Layer:** Native sync with Salesforce, HubSpot, and Pipedrive.
